Tools: Git, GitHub, Visual Studio, Responsive Design, Version Control

Work Experience

Intern Web Developer – Finfind
02/2024 – present   Durban South Africa

- Built and maintained full-stack web apps using ASP.NET Core MVC, C#, SQL, and ReactJS in internal training and development environments
- Contributed to internal tools and frontend features used by dev teams for testing and validation
- Worked closely with senior developers to debug issues, apply software fixes, and follow CI/CD practices
- Designed responsive UI components using TailwindCSS and vanilla JavaScript, now showcased in a live portfolio
- Practiced agile methodologies, participated in code reviews, and versioned code using Git and GitHub

About Me

Reliable, fast learner. Focused on writing clean, usable code.
